

SD-SOM

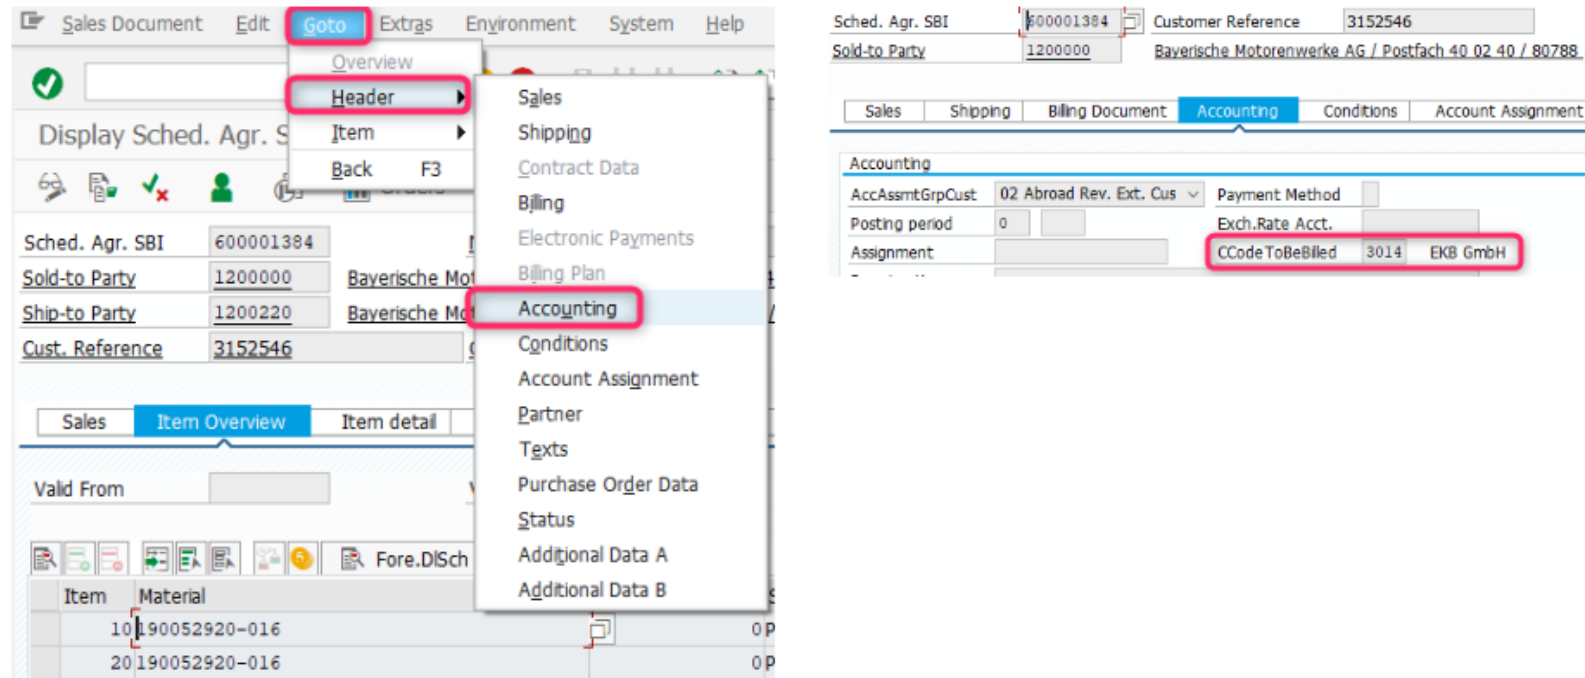

Following Knowledge Page will introduce the so-called SAP SD elements like SD-Scheduling Agreement (VA33) or Customer Order (VA03).

SD-Scheduling Agreement (VA33)

Here an overview how the SD-SA's looked like for Plant 1077 DPL BRA on 13.11.21:

DRX has different Sales Strategies. For 1077 DPL most of our external products are being sold via EKB. You can retrieve it via following path:

Very important is the Sched. Agreement Type as well the Item Category in the position.

Here the most important Sched.Agreement Types:

- ZLC: SD-SA with JIT Call-Off normal invoicing (GER LP mit Mengenabruf mit normalen Rechnungen) e.g. Aptiv, partial Daimler (VK13 PR00)
- ZLCG: SD-SA with JIT Call-Off and SBI (GER LP mit Mengenabruf mit Gutschriftsverfahren) (VK13 PR00)
- ZLIC: SD-SA Intercompany (No VK13 PR00)
- ZLZ: SD-SA w/ Rel. EDI (GER LP mit EDI-Abrufeinspielung) (VK13 PR00)
- ZLZG: SD-SA w/ Rel. EDI and SBI (GER LP mit EDI-Abrufeinspielung und Gutschriftsverfahren) (VK13 PR00)

Sched. Agr. SBI	600001384	Customer Reference	3152546
Sold-to Party	1200000	Bayerische Motorenwerke AG / Postfach 40 02 40 / 80788 ...	

Sales	Shipping	Billing Document	Accounting	Conditions	Account Assignment
-------	----------	------------------	------------	------------	--------------------

Sched. Agreement T	ZLZG	Sched. Agr. SBI	Document Date	01.10.2020
Sales Area	3014 / 10 / 14	EKB, External sales, Component Sys. (CS)		
Sales office	2000	DPL BRA Production	Created By	MIGRATION01
Sales group			Created on	01.10.2020 15:39:44

Here an up listing of the most important Item Categories in the position. One major control is MTS (Make-To-Schedule) or MTO (Make-To-Order):

- ZLZN: MTS Sched.Agreement Item external (GER Lieferplanposition external)
- ZLZE: MTO Production
- ZLIE: MTO Sched.Agr. IC
- ZLET: MTO Sched.Agr.IC
- ZLGT: MTS Sched. Agreement Intercompany GiT (Gutschriftsverfahren)
- ZLIC: MTS Sched. Agreement Intercompany Invoicing

Delivery Schedule Analysis (ZACSRCMON)

If you like to analyze deviations in your SD-call-offs the DGT has implemented following ACS Add-on:

Forecast/JIT Delivery Schedule Analysis in SD

Documentation - Application

Following Training document can be used as well:

Forecast/ JIT Delivery Schedule Analysis in SD
(GER Mengendifferenzliste / SD-Abrufschwankung)

Transaction ZACSRMON

←
Variant: Analysis based on material no.

→
Variant: General selection per SD-MRP controller (GER Versand-Disponent/-in)
